

June 2, 2020

All Employees:

Unemployment Fraud is when someone files for unemployment in your name and has the money sent to their own bank account. This is happening all over the country during COVID19.

If you believe you are a victim of Unemployment Fraud during the Pandemic please go to:

<https://www.mass.gov/forms/report-unemployment-insurance-fraud-online> and complete the form.

It is very important that you let Massachusetts know because if you ever need to file, they will tell you no, that you are already receiving unemployment and you will likely have to pay taxes on the money you DID NOT receive at the end of the year.

Please call HR if you have any additional questions. We are here for you.
